**Department of Health Services
Children's Medical Services Network
(CMS Net) - Information Bulletin # 49**

The February Change Cycle is scheduled for implementation on Saturday, February 28, 2004. Included in the change cycle update will be the E47 Client Eligibility – Insurance enhancement.

The E47 Client Eligibility – Insurance enhancement will continue to provide a screen for Searching MEDS and includes new screens for Healthy Families Coverage, Medi-Cal Coverage and Insurance Coverage. These screens will be presented in a full screen application, replacing the existing roll & scroll functionality. A future phase of this enhancement will include the sending of private health insurance and personal injury records to Third Party Liability for cost avoidance and post-payment recovery.

Attached are the training manual sections that relate to this enhancement. These sections will replace the existing sections for Insurance/Other Coverage and MEDS Inquiry. Please have these training manual sections distributed to all affected users, at a minimum, for review prior to implementation.

**To access the new and revised manual sections discussed above,
